---

Chris,

The best time would be Thursday or Friday at 1:00, but I could also do Friday morning.

-Jennifer

Subject: Sturgeon SOW for Round 3

Hi Chip, Eric, Joe, Jeremy, Jenn, Rob and Bob,

In the draft scope of work from Parametrix received last Friday, Parametrix correctly noted the following regarding sturgeon data needs:

1. /Sturgeon tissue SOW/. I don't believe we ever reached consensus on this aspect of the scope in our last meetings in Portland. We need to decide how much of this can be scoped out in time for the 17 February submittal to LWG, or if this is a separate (but soon to follow) effort.

I think it is critical that the sturgeon data needs that we have identified be included in the scope of work to LWG with as much specificity as possible. Hopefully we can resolve this at our meeting tomorrow in Centralia. However, in the event that we do not, I would like to have a conference call this week to discuss and hopefully agree upon an experimental design for prebreeding sturgeon to include in the SOW. so, please let me know what times you can not make, or alternatively would prefer to have, a conference call on Wednesday, Thursday or Friday, and I will arrange a time for us to talk if that becomes necessary.

Many thanks,

Chris
